EGL USA[®]
GEMOLOGICAL LABORATORY

For more than three decades, EGL USA has provided superior science and service — cutting-edge research, state-of-the-art testing, client and consumer education, and comprehensive gem identification and evaluation reports.

As part of its commitment to superior customer service, EGL USA offers a wide variety of report styles and options.

Full Reports are comprehensive final findings with supporting diagrams and/or photos, on full-size laminated sheets (typically 8.5" x 11").

Mini Plot Reports are key final findings, often with basic diagrams and/or photos, on compact, laminated cards (typically 4" x 3.25").

Mini Reports are basic gemological summaries, usually with photos, on laminated cards in passport, credit card, or key fob sizes.

Preliminary Results are summary charts (text only) of initial findings, designed to help customers determine their ultimate report needs.

Pricing Policies

Preliminary results fees are waived when the original customer orders a report for the same stone within six months. Preliminary results are retained for a maximum of two years.

Receipts are required for stone or jewelry pickup. Any Item that needs to be retrieved without a receipt will incur an additional \$25 processing fee.

Fees are incurred in full, regardless of outcome, upon commencement of lab work.

Payment is due in full upon completion of lab work or customer pickup, whichever occurs first. EGL USA accepts payment via cash, check, or major credit card.
